

2017 Summer Assignment

AP Physics 1

Read and study Appendices A, B, C, D, and E in the textbook (Cutnell & Johnson, Physics, 10th edition). You are responsible for knowing this material prior to beginning the course. If needed, find sources to learn the material.

Read Chapter 1 in textbook.

Focus on Concepts (pp 18-20): 1 – 18

Problems (pp 20-25): 1 – 9, 12 – 17, 23 – 29, 34 – 41, 45 – 51, 57 – 63 (answers to odd problems in back of book)

This assignment is due August 3, 2017. When the course is available in Canvas, I will put the assignment in Canvas. The format for the submission is a PDF. You do not have to do the assignment on your iPad. I actually encourage you to use paper, photograph your assignment and submit as a PDF. Your work that you submit should be your final product – neat and coherent – not a draft with several attempts.
