

Mu Alpha Theta

Moderator: Mr. Stuart Westran

Mission: The name Mu Alpha Theta was constructed from the Greek lettering for the phonemes m, a, and th. Our Bishop Verot Mu Alpha Theta is an honor society that promotes high achievement in mathematics. During our bi-monthly meetings, members come together and interact using their gift in the subject of mathematics. Students must be nominated and meet the rigorous academic requirements of our chapter to become members. We participate in competitions nationally and locally. In order to maintain their membership, students must participate in 80% of our meetings and 50% of our competitions; as well as maintain the required grades in math and overall academic GPAs. In this club we have fun with math by thinking outside the box while adding a competitive element.

Meetings: Fridays (twice a month)
