Moderator: Mr. Kurt Prey

Mission: The Bishop Verot STEM Team is an after school club that competes against other schools in STEM tour events. The activities are focused on science, technology, engineering and math. We encourage creative thinking in all of our projects. Previous projects have included solar boats, solar ovens, geocaching, Rube Goldberg machines, solar sprint cars, SeaPerch, and solar go-kart racing. Please contact Mr. Prey if you are interested in STEM Team.
