

Parents interested in observing your student's Canvas account

1. Go to bvhs.instructure.com on a computer. (Many mobile devices do not allow this setup feature)
2. By the BV, you will see a box for parents to sign up.
3. Enter the information and click start participating (You will need your students Canvas username and password to set this up).
4. Canvas will send an email to you allowing you to set your own password. You will have to set a password before Canvas will let you log back in even though you can participate at registration.
5. You are now an observer in their classes. You can access grades, assignments in the calendar as well as teacher feedback.
6. If you need to add more than one student, click on your personal account settings. Open "Observing" link at the bottom. Add username and password of next student and click "Add Student". Continue this process for all of your students. I suggest on the calendar, you color coordinate each students classes (assign 1 color to student#1, a second color to student#2, etc). This makes it easier to track what assignments are due daily for multiple students in one household.
7. Canvas is a free mobile App on Android and Apple devices. Type in bvhs.instructure.com when asked for the school.

If you have any questions or concerns regarding setup, please email Shannon.Larrea@bvhs.org. Concerns regarding individual classes should be emailed to teachers.
